TECHNICAL SKILLS

WordPress Development
WooCommerce Development
Formidable Forms implementation
WPML Implementation

ABOUT ME

I'm a web professional and I help businesses and agencies with WordPress and WooCommerce development. I've been working with WordPress for more than 10 years and custom-built about 200 websites for several businesses and agencies. Right now I'm focusing to work with SMEs and other independent professionals that want to get more leads and customers, increase their profit margin on sales (AOV), and sell more to their current customer base (LTV).
